Power Sensor

Monitor power sources going off or coming on in real time, including generators, UPS, main power & more.

We've got facilities covered.

The Power Sensor gives you the ability to monitor the on/off status of nearly any power source. Use it to monitor your backup generator or UPS status, or to determine if main power is lost. You can also be alerting to power returning if you receive notification that it has been lost. For more information and specifications, please visit RoomAlert.com.
